Subject: **Crude Equalization Annual Review**

---

On December 17, 2014, industry voted to carry forward the then-current equalization scale indefinitely with an annual review by the Equalization Steering Committee.

This letter is to advise Shippers that the Equalization Steering Committee has reviewed the appropriateness of the current crude sulphur and density penalties and the committee has concluded that the penalties can remain unchanged until the next committee review:

<b>Density (Kg/m<sup>3</sup>)</b>	<b>Cdn \$/m<sup>3</sup> per Kg/m<sup>3</sup></b>
<800	<b>\$0.49</b>
800-825	<b>\$0.00</b>
>825	<b>\$0.49</b>

<b>Sulphur (%wt.)</b>	<b>Cdn \$/m<sup>3</sup> per 0.1 wt.% Sulphur</b>
< 0.5	<b>(\$1.38)</b>
> 0.5	<b>\$1.38</b>
