Issue – Voting Shipper Eligibility, Equalization Procedures Guide Update

Background: In light of recent acquisitions and changes in corporate structures, the Committee identified the need to clarify shipper voting eligibility to maintain transparency and protect the integrity of future upcoming votes.

In alignment with its oversight role, the EQ Steering Committee initiated a review of the Equalization Procedures Guide to address these matters.

In March 2026, the Equalization Steering Committee approved the proposed revisions to the Equalization Procedures Guide, as reflected in the attached tracked changes, and authorized issuance of a ballot for final industry decision. Subject to a majority vote in favour, the revisions would take effect in May 2026. These amendments relate to definitions and voting eligibility.
