

EQUALIZATION STEERING COMMITTEE

To: All Shippers Participating in the Equalization Process
From: Equalization Steering Committee
Date: May 1, 2026
Subject: **Voting Shipper Eligibility, Equalization Procedures Guide Update**

In light of recent acquisitions and changes in corporate structures, the Committee identified the need to clarify shipper voting eligibility to ensure transparency and safeguard the integrity of future votes. Consistent with its oversight role, the Equalization Steering Committee initiated a review of the Equalization Procedures Guide to address these matters.

In March 2026, the Equalization Steering Committee approved the proposed revisions to the Equalization Procedures Guide, and on April 2, 2026, the Committee requested that Shippers vote on the proposed changes to the Equalization Procedures Guide. The deadline to submit ballots was set for April 28, 2026.

The Equalization Procedures Guide changes were approved by Shippers, and they will take effect for the production month of **May 2026**. The approved document can be accessed on the www.industryeq.ca website.
